Benefits

Death Benefit

Life Annuity with Return of 100% of Purchase Price:

- On death of the annuitant, the annuity payment shall cease immediately. The Purchase Price (excluding taxes, if any) shall be payable to nominee(s) / legal heirs

Joint Life Last Survivor Annuity with Return of 100% of Purchase Price (ROP) on death of the last survivor:

- On first death (of either of the covered lives): 100% of the annuity amount shall
- Continue to be paid as long as one of the annuitants is alive
- On death of the last survivor: The annuity payments will cease immediately. The Purchase Price (excluding taxes, if any) shall be payable to the nominee(s) / legal heirs

Maturity Benefit

There is no Maturity Benefit under the product.

Survival Benefit

Life Annuity with Return of 100% of Purchase Price:

- Annuity Payments will be made in arrears for as long as annuitant is alive, as per the chosen mode of annuity payment

Joint Life Last Survivor Annuity with Return of 100% of Purchase Price (ROP) on death of the last survivor:

- Annuity will be paid in arrears for as long as the primary annuitant and/or secondary annuitant is alive, as per the chosen mode of annuity payment

Grace Period

Not Applicable.

Freelook Period

- a. This is an option to review the Policy following receipt of Policy Document. The Policyholder has a Freelook Period of 15 days (30 days in case of electronic policies and policies obtained through distance mode) from the date of receipt of the Policy Document, to review the terms and conditions of the policy and where the policyholder disagrees to any of those terms and conditions, the policy holder has the option to return the Policy to the Company for cancellation, stating the reasons for his objection. Then the Policyholder shall be entitled to a refund of the Premium subject only to a deduction of stamp duty charges and annuity paid, if any.
- b. The treatment of the Policy shall be as follows:
 - i. For standalone immediate annuity policies: the proceeds from cancellation shall be returned to the Policyholder.
 - ii. If this Policy is purchased out of proceeds of a deferred pension plan of any other insurance company: the proceeds from cancellation will be transferred back to that insurance company.

Surrender

The Policy can be surrendered any time after six months from the date of commencement, if the annuitant or the spouse or any of the children of the annuitant is diagnosed as suffering from any of the critical illnesses specified in the Policy Document, based on the documents produced to the satisfaction of the medical examiner of the Insurer. The list of critical illnesses may be revised from time to time by the Authority as needed.

On approval of surrender, 95% of the Purchase Price (excluding taxes, if any) shall be paid to the annuitant, subject to deduction of outstanding loan amount and loan interest, if any.

On payment of Surrender Value, the policy stands terminated.

Policy Loan

Loan can be availed any time after six months from the date of commencement of the Policy. Maximum amount of loan that can be granted under the Policy shall be such that the effective annual interest amount payable on loan does not exceed 50% of the annual annuity amount payable under the policy.

Under joint life option, the loan can be availed by the primary annuitant and on death of the primary annuitant, it can be availed by the secondary annuitant.

- a. The interest on loan shall be at 10-year G-Sec rate as on 1st April of the relevant financial year, as published by M/s. FBIL, plus not more than 200 bps and shall be applicable for all loans granted during the period of twelve months, beginning 1st May of the relevant financial year.
- b. The loan interest will be recovered from the annuity amount payable under the Policy. The loan interest will accrue as per the frequency of annuity payment under the Policy and it will be due on the date of annuity. The loan outstanding shall be recovered from the claim proceeds under the Policy. However, the annuitant has the flexibility to repay the loan principal at any time during the currency of the annuity payments.

Nomination & Assignment

Nomination, as defined under Section 39 of the Insurance Act, 1938, as amended from time to time are allowed under this Policy, and Assignment, as defined under Section 38 of the Insurance Act, 1938, as amended from time to time are allowed under this Policy.

Acceptance

Receipt by the Company of the completed proposal and initial payment does not create any obligation on the part of the Company to underwrite the risk, and the Company shall not be liable until such time it has underwritten the risk and issued the Policy.

Why Insure with Aviva?

Aviva Life Insurance is a joint venture between Dabur Invest Corp and Aviva International Holdings Limited – a UK based insurance group, whose association with India goes back to 1834. By choosing Aviva Life Insurance you benefit from the management experience of one of the world's oldest Insurance Groups, with a history dating back to 1696.

Founded in 1884, Dabur India Limited, the flagship company of Dabur Group, is one of India's oldest and largest companies. It is one of the country's leading producers of traditional healthcare products.

Section 41

In accordance with Section 41 of the Insurance Act, 1938, “No person shall allow or offer to allow, either directly or indirectly, as an inducement to any person to take or renew or continue an insurance in respect of any kind of risk relating to lives or property in India, any rebate of the whole or part of the commission payable or any rebate of the premium shown on the policy, nor shall any person taking out or renewing or continuing a policy accept any rebate, except such rebate as may be allowed in accordance with the published prospectuses or tables of the Insurer:

Any person making default in complying with the provisions of this section shall be punishable with fine which may extend to ten lakh rupees.

Section 45

In case of fraud or misrepresentation, the Policy shall be cancelled immediately by paying the surrender value, subject to the fraud or misrepresentation being established by the Company in accordance with Section 45 of the Insurance Act, 1938.

Annexure 1

1. Cancer Of Specified Severity

- I. A malignant tumour characterised by the uncontrolled growth and spread of malignant cells with invasion and destruction of normal tissues. This diagnosis must be supported by histological evidence of malignancy. The term cancer includes Leukaemia, Lymphoma and Sarcoma.
- II. The following are excluded –
 - i. All tumours which are histologically described as Carcinoma in situ, benign, premalignant, borderline malignant, low malignant potential, neoplasm of unknown behaviour, or non-invasive, including but not limited to: Carcinoma in situ of breasts, Cervical Dysplasia CIN-1, CIN -2 and CIN-3
 - ii. Any Non-Melanoma Skin Carcinoma unless there is evidence of metastases to lymph nodes or beyond;
 - iii. Malignant Melanoma that has not caused invasion beyond the epidermis
 - iv. All tumours of the prostate unless histologically classified as having a Gleason score greater than 6 or having progressed to at least clinical TNM classification T2N0M0

- v. All Thyroid cancers histologically classified as T1N0M0 (TNM Classification) or below;
- vi. Chronic Lymphocytic Leukaemia less than RAI stage 3
- vii. Non-invasive papillary cancer of the bladder histologically described as TaN0M0 or of a lesser classification
- viii. All Gastro-Intestinal Stromal Tumours histologically classified as T1N0M0 (TNM Classification) or below and with mitotic count of less than or equal to 5/50 HPFs
- ix. All tumours in the presence of HIV infection

2. Myocardial Infarction

(First Heart Attack of specific severity)

- I. The first occurrence of heart attack or Myocardial Infarction, which means the death of a portion of the heart muscle as a result of inadequate blood supply to the relevant area. The diagnosis for Myocardial Infarction should be evidenced by all of the following criteria:
 - i. A history of typical clinical symptoms consistent with the diagnosis of Acute myocardial infarction (For e.g. typical chest pain)
 - ii. New characteristic electrocardiogram changes
 - iii. Elevation of infarction specific enzymes, Troponins or other specific biochemical markers.
- II. The following are excluded:
 - i. Other Acute Coronary Syndromes
 - ii. Any type of Angina Pectoris
 - iii. A rise in cardiac biomarkers or Troponin T or I in absence of overt ischemic heart disease OR following an intra-arterial cardiac procedure

3. Open Chest CABG

- I. The actual undergoing of heart surgery to correct blockage or narrowing in one or more coronary artery(ies), by coronary artery bypass grafting done via a sternotomy (cutting through the breastbone) or minimally invasive keyhole coronary artery bypass procedures. The diagnosis must be supported by a coronary angiography and the realisation of surgery has to be confirmed by a cardiologist.

- II. The following are excluded: i. Angioplasty and/or any other intra-arterial procedures

4. Open Heart Replacement Or Repair Of Heart Valves

- I. The actual undergoing of open-heart valve surgery is to replace or repair one or more heart valves, as a consequence of defects in, abnormalities of, or disease-affected cardiac valve(s). The diagnosis of the valve abnormality must be supported by an echocardiography and the realisation of surgery has to be confirmed by a Specialist Medical Practitioner. Catheter based techniques including but not limited to, balloon valvotomy/valvuloplasty are excluded.

5. Coma Of Specified Severity

- I. A state of unconsciousness with no reaction or response to external stimuli or internal needs. This diagnosis must be supported by evidence of all of the following:
 - i. No response to external stimuli continuously for at least 96 hours
 - ii. Life support measures are necessary to sustain life
 - iii. Permanent neurological deficit which must be assessed at least 30 days after the onset of the coma
- II. The condition has to be confirmed by a specialist medical practitioner. Coma resulting directly from alcohol or drug abuse is excluded.

6. Kidney Failure Requiring Regular Dialysis

- I. End stage renal disease presenting as chronic irreversible failure of both kidneys to function, as a result of which either regular renal dialysis (haemodialysis or peritoneal dialysis) is instituted or renal transplantation is carried out. Diagnosis has to be confirmed by a specialist medical practitioner.

7. Stroke Resulting In Permanent Symptoms

- I. Any cerebrovascular incident producing permanent neurological sequelae. This includes infarction of brain tissue, thrombosis in an intracranial vessel, haemorrhage and embolisation from an extracranial source. Diagnosis has to be confirmed by a specialist medical practitioner and evidenced by typical clinical symptoms as well as typical findings in CT Scan or MRI of the brain. Evidence of permanent neurological deficit lasting for at least 3 months has to be produced.
- II. The following are excluded:
 - i. Transient Ischemic Attacks (TIA)
 - ii. Traumatic injury of the brain
 - iii. Vascular disease affecting only the eye or optic nerve or vestibular functions

8. Major Organ / Bone Marrow Transplant

- I. A state of unconsciousness with no reaction or response to external stimuli or internal needs. This diagnosis must be supported by evidence of all of the following:
 - i. Human bone marrow using haematopoietic stem cells. The undergoing of a transplant has to be confirmed by a specialist medical practitioner.
- II. The following are excluded:
 - i. Other stem-cell transplants
 - ii. Where only islets of Langerhans are transplanted

9. Permanent Paralysis Of Limbs

- I. Total and irreversible loss of use of two or more limbs as a result of injury or disease of the brain or spinal cord. A Specialist Medical Practitioner must be of the opinion that the paralysis will be permanent with no hope of recovery and must be present for more than 3 months.

10. Motor Neuron Disease With Permanent Symptoms

I. Motor Neuron Disease diagnosed by a specialist medical practitioner as spinal muscular atrophy, Progressive Bulbar Palsy, Amyotrophic Lateral Sclerosis or Primary Lateral Sclerosis. There must be progressive degeneration of corticospinal tracts and anterior horn cells or bulbar efferent neurons. There must be current significant and permanent functional neurological impairment with objective evidence of motor dysfunction that has persisted for a continuous period of at least 3 months.

11. Multiple Sclerosis With Persisting Symptoms

- I. The unequivocal diagnosis of Definite Multiple Sclerosis confirmed and evidenced by all of the following:
 - i. Investigations including typical MRI findings which unequivocally confirm the diagnosis to be multiple sclerosis and
 - ii. There must be current clinical impairment of motor or sensory function, which must have persisted for a continuous period of at least 6 months.
- II. Other causes of neurological damage such as SLE and HIV are excluded.

12. Benign Brain Tumour

- I. Benign brain tumour is defined as a life threatening, non-cancerous tumour in the brain, cranial nerves or meninges within the skull. The presence of the underlying tumour must be confirmed by imaging studies such as CT scan or MRI.
- II. This brain tumour must result in at least one of the following and must be confirmed by the relevant medical specialist.
 - i. Permanent Neurological Deficit with persisting clinical symptoms for a continuous period of at least 90 consecutive days or
 - ii. Undergone surgical resection or radiation therapy to treat the brain tumour
- III. The following conditions are excluded: Cysts, Granulomas, malformations in the arteries or veins of the brain, hematomas, abscesses, pituitary tumours, tumours of skull bones and tumours of the spinal cord.

13. Blindness

- I. Total, permanent and irreversible loss of all vision in both eyes as a result of illness or accident.
- II. The Blindness is evidenced by:
 - i. Corrected visual acuity being 3/60 or less in both eyes or
 - ii. The field of vision being less than 10 degrees in both eyes
- III. The diagnosis of blindness must be confirmed and must not be correctable by aids or surgical procedure.

14. End Stage Lung Failure

- I. End stage lung disease, causing chronic respiratory failure, as confirmed and evidenced by all of the following:
 - i. FEV1 test results consistently less than 1 litre measured on 3 occasions 3 months apart
 - ii. Requiring continuous permanent supplementary oxygen therapy for Hypoxemia
 - iii. Arterial blood gas analysis with partial oxygen pressure of 55 mmHg or less ($\text{PaO}_2 < 55\text{mmHg}$)
 - iv. Dyspnoea at rest.

15. End Stage Liver Failure

- I. Permanent and irreversible failure of liver function that has resulted in all three of the following: Permanent Jaundice; and Ascites; and Hepatic Encephalopathy.
- II. Liver failure secondary to drug or alcohol abuse is excluded.

16. Loss Of Speech

- I. Total and irrecoverable loss of the ability to speak as a result of injury or disease to the vocal cords. The inability to speak must be established for a continuous period of 12 months. This diagnosis must be supported by medical evidence furnished by an Ear, Nose, Throat (ENT) specialist.
- II. All psychiatric related causes are excluded.

17. Loss Of Limbs

- I. The physical separation of two or more limbs, at or above the wrist or ankle level limbs as a result of injury or disease. This will include medically necessary amputation necessitated by injury or disease. The separation has to be permanent without any chance of surgical correction. Loss of Limbs resulting directly or indirectly from self-inflicted injury, alcohol or drug abuse is excluded.

18. Major Head Trauma

- I. Accidental head injury resulting in permanent Neurological Deficit to be assessed no sooner than 3 months from the date of the accident. This diagnosis must be supported by unequivocal findings on Magnetic Resonance Imaging, computerised tomography, or other reliable imaging techniques. The accident must be caused solely and directly by accidental, violent, external and visible means and independently of all other causes.
- II. The accidental head injury must result in an inability to perform at least three (3) of the following activities of daily living either with or without the use of mechanical equipment, special devices or other aids and adaptations in use for disabled persons. For the purpose of this benefit, the word **permanent** shall mean beyond the scope of recovery with current medical knowledge and technology.
- III. The activities of daily living are:
 - i. Washing: the ability to wash in the bath or shower (including getting into and out of the bath or shower) or wash satisfactorily by other means
 - ii. Dressing: the ability to put on, take off, secure and unfasten all garments and, as appropriate, any braces, artificial limbs or other surgical appliances
 - iii. Transferring: the ability to move from a bed to an upright chair or wheelchair and vice versa
 - iv. Mobility: the ability to move indoors from room to room on level surfaces

19. Primary (Idiopathic) Pulmonary Hypertension

- I. An unequivocal diagnosis of Primary (Idiopathic) Pulmonary Hypertension by a Cardiologist or specialist in respiratory medicine with evidence of right ventricular enlargement and the pulmonary artery pressure above 30 mm of Hg on Cardiac Cauterisation. There must be permanent irreversible physical impairment to the degree of at least Class IV of the New York Heart Association Classification of cardiac impairment.
- II. The NYHA Classification of Cardiac Impairment are as follows:
 - i. Class III: Marked limitation of physical activity. Comfortable at rest, but less than ordinary activity causes symptoms
 - ii. Class IV: Unable to engage in any physical activity without discomfort. Symptoms may be present even at rest
- III. Pulmonary hypertension associated with lung disease, Chronic Hypoventilation, Pulmonary Thromboembolic disease, drugs and toxins, diseases of the left side of the heart, congenital heart disease and any secondary cause are specifically excluded.

20. Third-Degree Burns

- I. There must be third-degree burns with scarring that cover at least 20% of the body's surface area. The diagnosis must confirm the total area involved using standardised, clinically accepted, body surface area charts covering 20% of the body surface area.
