If the policyholder does not specify the allocation proportion at the time of making the top-up premium, the allocation proportion for top-up premium will be the same as applicable for regular premium.

Top-up premiums are not allowed during the last 5 policy years of the plan.

At any point during the currency of the contract, the total top-up premiums paid shall not exceed the sum total of the regular premiums paid at that point of time.

Top-up premiums once paid cannot be withdrawn from the fund for a period of 5 years from the date of payment of 'Top-up' premium, except in case of complete surrender of the policy.

The sum assured pertaining to top-up premium shall be equal to 1.25 times the top-up premium.

Partial Withdrawals

Partial withdrawals are allowed after completion of the first five policy years, provided the life insured has attained age 18 years last birthday.

Partial withdrawals can be made from the top-up premium unit account at any time after completion of five years from the date when units are allocated against that tranche of top-up premium, by cancelling units pertaining to top-up premium provided the life insured has attained age 18 years last birthday.

All partial withdrawals shall first be made from the top-up premium unit account, if any and if eligible, and when that is exhausted then the balance amount is to be withdrawn from the regular premium unit account.

Any partial withdrawal from units pertaining to regular premium shall be allowed only to the extent that the fund value of units pertaining to regular premium, after the proposed partial withdrawal, does not fall below the 2 times the first year annualized premium.

The partial withdrawals shall not be allowed which would result in termination of the policy.

The total number of partial withdrawals made in a policy year shall not exceed 4. These partial withdrawals, if un-availed in a policy year, shall not be carried forward.

Units will be cancelled at their NAV from the respective fund as per the unit encashment conditions.

The minimum amount of partial withdrawals is ₹5,000.

Systematic Partial Withdrawal from units pertaining to Regular premium

The policyholder will have the choice to opt for a Systematic Partial Withdrawal option after completing first 5 policy years anytime during the policy term except during the last 3 years before maturity. Under this option, a fixed percentage of fund value pertaining to regular premium at the time of start of Systematic Partial Withdrawal shall be payable to the policyholder as structured payouts out of his Unit account subject to following conditions.

The Payout Term should be any whole number from 3 to outstanding Policy Term.

During the payout period, all investment risks shall continue to be borne by the policyholder.

Direct Credit / ECS is available for all payout modes but facility to pay through Cheque is available only for Yearly and Half Yearly payout modes.

All the payments shall be made in arrears.

If at any time, during the payout period, the fund value falls below 2 times the first year annualized premium for Regular premium, then the Systematic Partial Withdrawal will stop and the policy will continue as per the terms and conditions.
